

E.manual

Aims :

Create a e.manual collecting technical documents in english, french, and islandic about the different the implemented projects in every country during the two years of the leonardo program Ecojobs. Each file can be complete with different weblinks to deepen the technical subjects. Each student can complete his e.manual with the documents of preparation of the travel (worksop) and with the report after the travel.

The e.manual is so a technical ressource for all people interested in the technical subjects.

For each subject, it's possible to contact a specialist in each land

The public :All the students , professionals and teachers involved in the leonardo project; all people interested by technical experience in the field of nature,agriculture,lansdscaping,gardening,catering

Partnership :

In France : Pépinière Lemonnier; Ferme de la gentilhommière(production de cidre) ; Communes de Mesnières ;Château de Mesnières;Parc Weber;FDC de la Somme

Productions and results :

All the results are available on the websites or the portfolio of every establishment ?

In France :

Technical files in french and english and photo albums about willow weaving and breeding ground to bird building ;vidéos (FR3 2013;FR3 2014) on the web site of the school
